Tägliche Updates (ggfs. weltweit)

The screenshot shows the TESLARATI website with a green header. The main navigation includes "NEWS", "TESLA", "SPACE X", "ELON MUSK", and "MARKETPLACE". A "NEWS" tag is visible above the article title. The article title is "Tesla makes Automatic Emergency Braking even safer in update". The author is "By Joey Klender" and the article was "Posted on April 28, 2023". The article text states: "Tesla has made its Automatic Emergency Braking (AEB) even safer by adding the ability to operate in reverse and increasing its operational top speed. AEB is a feature that is found in many cars and is an active safety system that can identify an imminent collision and automatically apply the brakes, helping prevent an impact. The feature has been used to eliminate the potential of an accident and has been made standard in many cars, especially as distracted driving is at an all-time high." A small image of a woman is visible on the right side of the article.
