

STATISTICAL REPORT 2018-2019

June 2019

EUROPEAN GLASS INDUSTRIES

In order to provide a comprehensive and analytical overview of the situation in the glass industry, this report provides statistics for the whole glass industry together and statistics for each of the glass sectors. The situation varies a lot between the different sectors.

Contents

I. <u>Introduction and Commentaries</u>	3

• Production 2018.....	5
• Employment & Productivity 2018.....	8
• External Trade : General Situation 2018.....	9
• External Trade : IMPORTS Extra EU 2018.....	11
• External Trade : EXPORTS Extra EU 2018.....	13

I. Introduction – Commentaries

State of the Industry

In 2018, the EU-28 glass **production** reached a volume of 36.5 million tonnes, a slight increase of 0.2% compared with 2017, which could indicate that the market is stabilising. Since 2016 all glass sectors succeeded to increase or maintain their production level thanks to a revived economy, mainly in the construction sector, car industry, energy, engineering and food services. It is however important to point out that production levels can be deeply impacted by third countries imports into the EU, and mostly those covered by illegal dumping and state aid subsidies.

The European production level still maintains the EU as one of the largest glass producers in the world with China and North America. Germany remains the EU's biggest producer with about one fifth of the volume, closely followed by Italy, France, Spain and the UK.

Regarding **foreign trade from third countries**, imports from Asian countries, and in particular China, remain big competitors.

Compared with 2017, 2018 extra EU-28 **exports** remained **stable (+0.6%) in volume** at 3.14 million tonnes and **increased by 1.9% in value** with 6.91 bn Euros. The EU-28's four major clients in volume are the rest of Europe (44.8%), including Switzerland (15.5%), Turkey (7.3%) and Russia (4.4%), followed by the USA (11.9%), North Africa (6.4%) and Far East Asia (8.4%) including China (3.4%).

As for extra-EU **imports** in EU-28, in 2018 they increased **in volume by 11.6%** (nearly 4.5 million tonnes) and **in value by 6.6%** (6.36 bn euros) compared with 2017. Far-East Asia accounted for 39% (including 31% from China alone), the rest of Europe for 41.7% (including Turkey (9.4%), Russia (9.6%), Switzerland (8.1%) & Ukraine (5.5%)), North Africa for 7% and the USA for 3.1%.

Employment 2018

The number of employees stabilized since 2013. Currently, the EU-28 glass industry employs about 186,000 people (incl. processors), showing a stable socio-economic situation.

Outlook

Behind these 2018 figures aggregated at the level of the whole glass industry, it is important to realize that the **situations are contrasted in the different sectors**. Evolutions in production and employment, as well as in the origin of imports into the EU, are very different between glass sectors. The global trend indicates however steadily increasing imports in all glass sectors with rather limited exports.

Although market conditions and consumer confidence were restored since 2015, competition remains intense with non-European glass manufacturers. Investment outside the European borders has materialised and imports are gradually and insidiously increasing, taking bigger EU market shares in nearly all glass sectors.

For 2019, one can pre-empt an ever-challenging manufacturing climate with the pending structural change due to the revised ETS legislation (ETS sector -43% by 2030) and the future EU decarbonisation policy of energy-intensive industries.

Moreover, the political worldwide context is also evolving and can impact the EU's global economy (Brexit, US policies, China, etc.).

2016	9,835	21,025	1,181	702	1,178
2017	10,665	21,537	1,253	700	1,052
2018	10,643	21,755	1,337	808	861
<i>Evolution on previous year</i>	- 0.2%	+ 1%	+ 6.7%	+15%	- 18%

in 1,000 tonnes

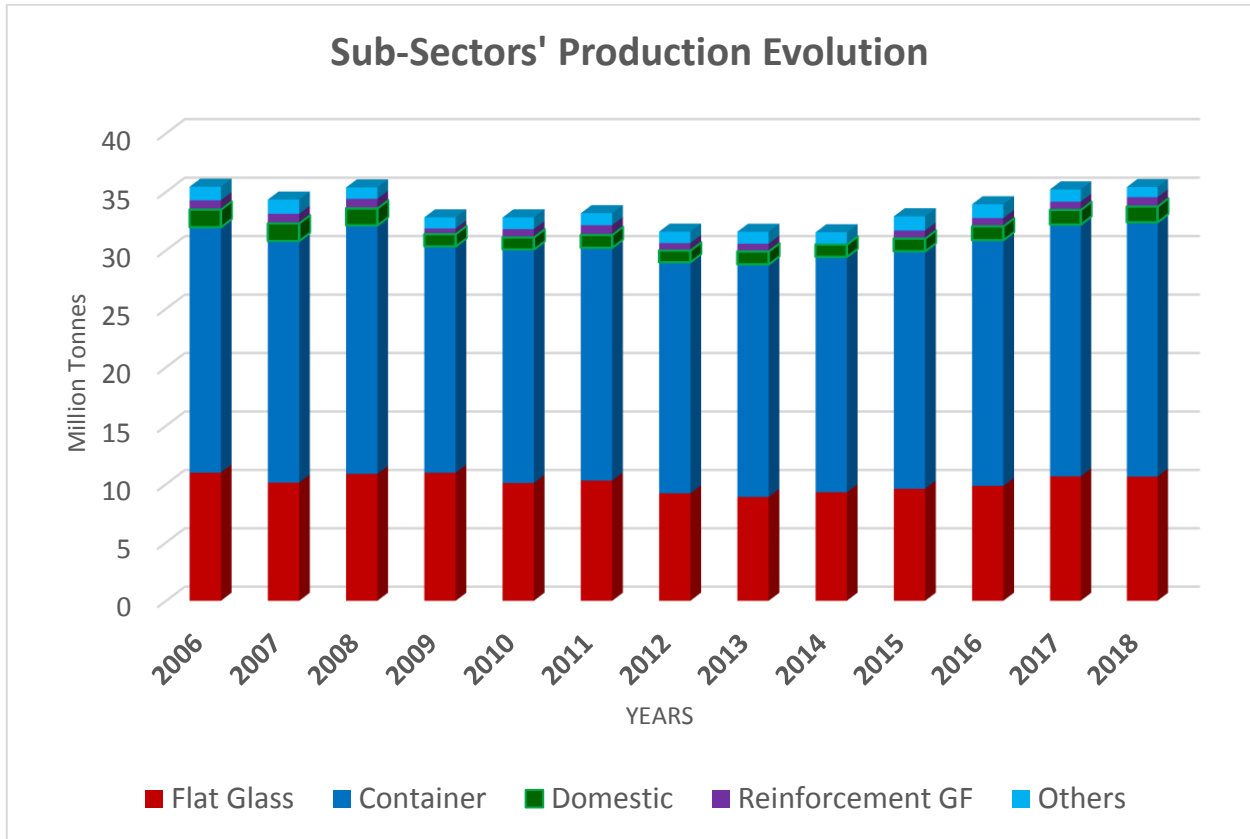

Container glass sector: Since 2015, report for the production of food and beverage glass packaging in the EU 28 represents 90% of the production and excludes flaconnage.

The production rate of EUR 28 slightly increased in 2017 compared with 2016 by 1.5%. Compared to 2005 index (100), sectoral production reached index 104 for flat glass, 103.5 for container glass, 83.6 for tableware and crystal, 96.3 for continuous filament glass fibres and 93.8 for other glasses.

3.3. Detailed Imports and Exports 2018 (Extra-EUR28) per Glass Sector

The following tables give

- 1) an overview of the EU imports and exports from detailed third countries in tonnes.**

Total Far East: Includes India, Pakistan, Bangladesh, Myanmar, Thailand, Vietnam, Indonesia, Malaysia, Brunei, Singapore, Philippines, Mongolia, China, Korea, Japan, Taiwan and Hong-Kong.

North Africa: Includes Morocco, Algeria, Tunisia, Libya and Egypt.

- 2) The historical evolution of the external trade per glass sectors both in tonnes and in value.**
