NOTE FOR THE FILE

Subject: AD745 – anti-dumping investigation into imports of robot lawn mowers originating in the People’s Republic of China

Non-imposition of provisional measures

On 19 November 2025, the European Commission initiated an anti-dumping proceeding concerning imports of robot lawn mowers originating in the People’s Republic of China.¹ The proceeding was initiated under Article 5 of Regulation (EU) 2016/1036 of the European Parliament and of the Council of 8 June 2016 on protection against dumped imports from countries not members of the European Union² ('the basic Regulation').

Given the technical complexity of the case, the Commission has decided to continue the anti-dumping investigation rather than impose provisional measures at this stage.

This note therefore constitutes the notification to interested parties required under Article 19a(2) of the basic Regulation.
