ANNEX I – SUMMARY OF THE PROPOSED DUTIES FOR INFORMATION PURPOSES ONLY

In accordance with Article 19a of Regulation (EU) 2016/1036 of the European Parliament and the Council of 8 June 2016 on protection against dumped imports from countries not members of the European Union ⁽¹⁾ ('the basic Regulation'), and with regard to the anti-dumping investigation concerning imports of certain alkyl phosphonic acid and their sodium salts originating in the People's Republic of China, with this annex the Commission provides a summary of the proposed provisional duties for information purposes only.

All exporting producers to which an individual margin has been determined will receive the details of the calculation of their individual provisional duty.

All exporting producers are requested to verify carefully the spelling of their company name in English as set out below and to notify the Commission immediately of any errors.

Product scope

The product subject to the provisional duties is 2-phosphonobutane-1,2,4-tricarboxylic acid and its sodium salt Tetrasodium hydrogen 2-phosphonatobutane-1,2,4-tricarboxylate, in solid form or in an aqueous solution, currently falling under CN code 2931 49 80 (TARIC code 2931 49 80 60) ('the product under investigation' or 'PBTC').

Provisional duties

As the facts of the case warrant the application of Article 7(2a), the injury margin is set at the same level as the dumping margin. The rates of the provisional duty applicable to the net, free-at-Union-frontier price, before duty, shall therefore be as follows:
