

ESG CHAIN

THE BLOCKCHAIN

Supply Chain Due Diligence with Blockchain and AI technologies

Andreas Böcskör, CEO
Florian Heder, CTO

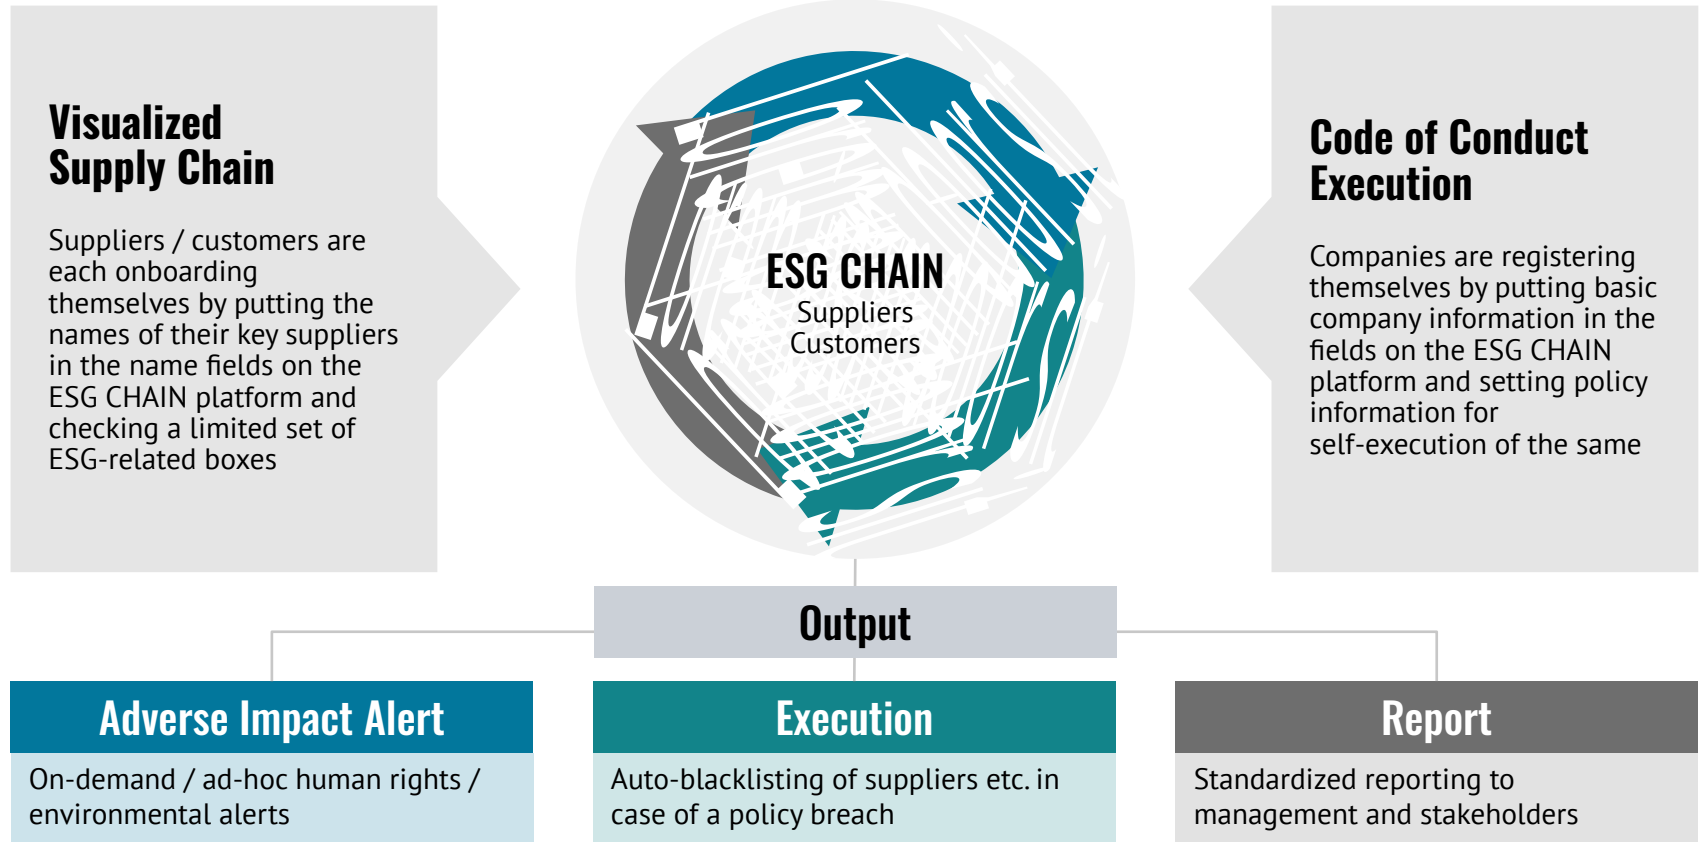

Our Vision

- **Get Control** over your **supply chain**
- **Virtualisation** of all suppliers and their suppliers
- Create of a **risk profile** of your suppliers

ESG CHAIN Customer Journey

Our Technology

“blockchain can resolve disputes by providing transparency and trust and by automating business rules to drive resolution” (IBM)

Smart Contracts

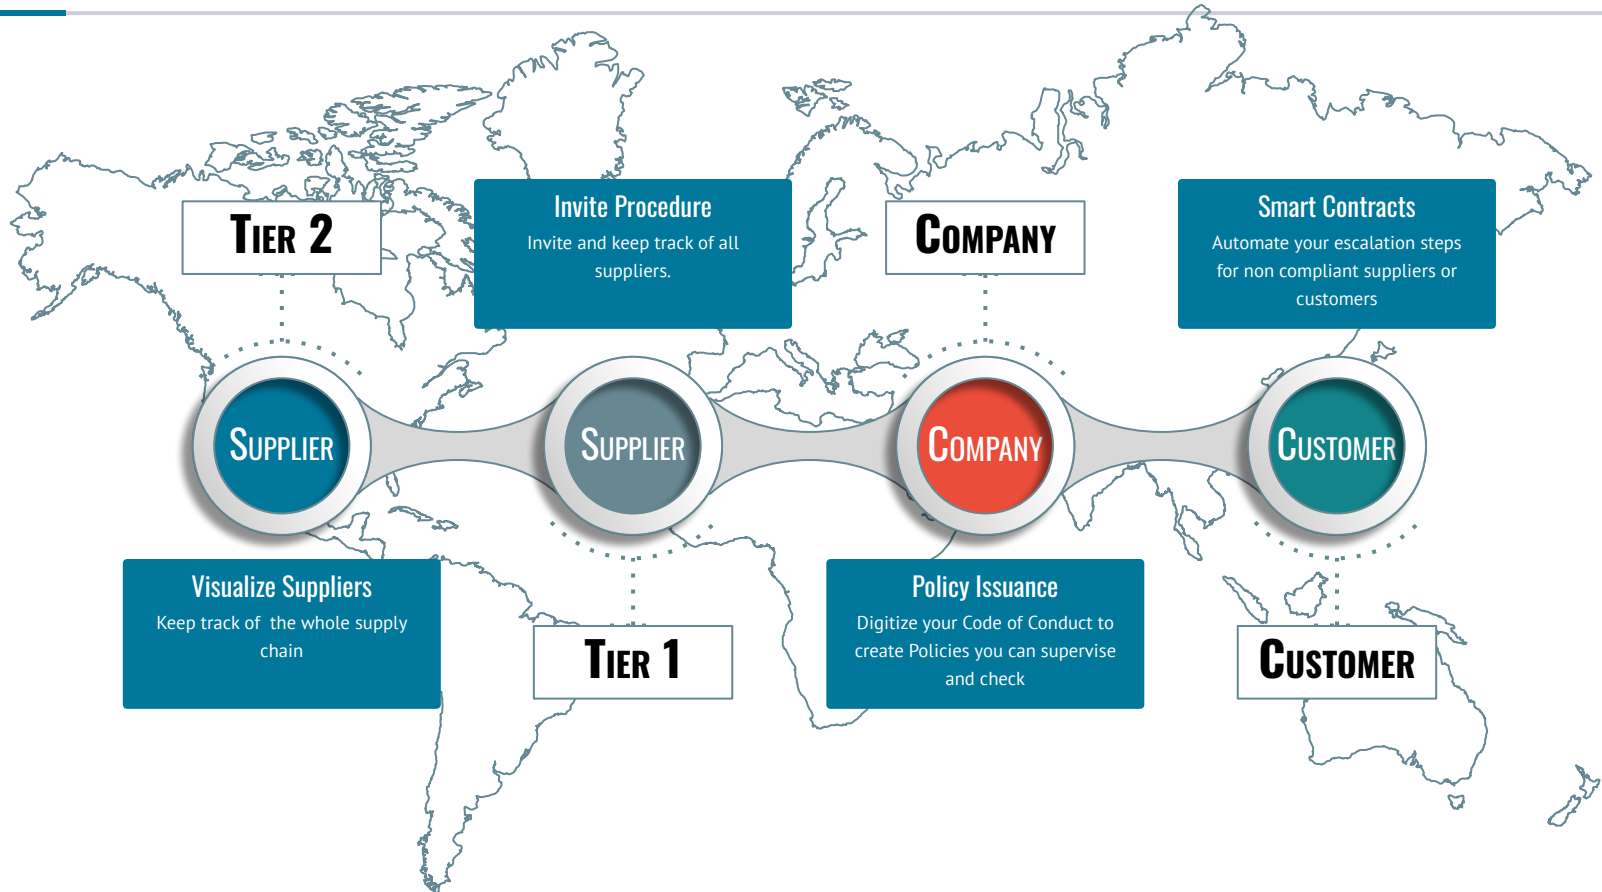

Virtualize Supply Chain and automate
Sanctions

AI based Search Engine

Finding ESG Data of Companies in
various sources

Supplier Onboarding

Why the ... Blockchain?

Permissioned Blockchain

Open Source Software
Hyperledger Fabric

Smart Contracts

self-executing and not
“out-of-control”

Granular access control

Share only the information you
want to share

Restricted Group of participants

efficient consent mechanism

Blockchain for documentation

having the correct information

Blockchain for traceability

having the correct holder of information

Blockchain for Zero Knowledge Proof

hide the all suppliers and share only the
necessary information

Team Competencies

**Andreas Böcskör |
CEO**

ESG Strategie seit 2017
Master in Supply Chain Management
Master in Law

**Florian Heder |
COO**

15 Years Erfahrung
in Web Development und
Blockchain
Master in Business Informatics

Software
Developer

**Software Developer
Team**

Blockchain Entwickler
Erfahrung in Web Technologie

ABC RESEARCH 

WU
WIRTSCHAFTS
UNIVERSITÄT
WIEN VIENNA
UNIVERSITY OF
ECONOMICS
AND BUSINESS

 **Fraunhofer**

**Scientific
Partners**

Auftragsforschung, z.B.
Datenmodellierung und -analyse
