

Brussels, XXX  
[...] (2024) XXX draft

ANNEXES 1 to 2

## ANNEXES

to the

### **Commission Implementing Regulation**

**establishing, pursuant to Regulation (EU) 2024/573 of the European Parliament and of the Council, minimum requirements for certificates of natural and legal persons and the conditions for the mutual recognition of such certificates as regards stationary fire protection systems and fire extinguishers containing certain fluorinated greenhouse gases or their alternatives and repealing Commission Regulation (EC) No 304/2008**

## ANNEX I

### *Minimum requirements as to the skills and knowledge to be covered by the evaluation bodies*

The examination referred to in Article 7 shall comprise the following:

- (a) a theoretical test with one or more questions testing that skill or knowledge, as indicated in the column 'Test type' by (T);
- (b) a practical test where the applicant shall perform the corresponding task with the relevant material, tools and equipment, as indicated in the column 'Test type' by (P).

Minimum knowledge and skills		Test type
1.	Basic understanding of the applicable EU and national legislation, in particular the F-gas Regulation (EU) 2024/573 and the Ozone Regulation (EU) 2024/590. Basic knowledge of relevant environmental issues (climate change, EU climate objectives, the Paris Agreement, Kigali amendment of the Montreal Protocol, global warming potential of fluorinated greenhouse gases)	T
2.	Basic knowledge of relevant technical standards	T
3.	Basic knowledge of relevant provisions of Regulation (EU) 573/2024 and of the relevant Regulations implementing provisions of Regulation (EU) 2024/573	T
4.	Good knowledge of the different types of fire protection equipment containing fluorinated greenhouse gases on the market, including different alternatives in existing and new system including their environmental impacts	T
5.	Good knowledge of types of valves, actuation mechanisms, safe handling, prevention of discharge and leakage	T
6.	Good knowledge of equipment and tools required for safe handling and work practices	T
7.	Ability to install fire protection system containers designed to contain fluorinated greenhouse gases or their alternatives	P
8.	Knowledge of correct practices to move pressurized containers containing fluorinated greenhouse gases or their alternatives	T
9.	Ability to check system records prior to a check for leakage and identify the relevant information on any repeating issues or problem areas	T
10.	Ability to make a visual and manual checking of the system for leakage in accordance with Commission Regulation (EC) No 1497/2007 of 18 December 2007 establishing, pursuant to Regulation (EC) No 842/2006, standard leakage checking requirements for stationary fire protection systems containing certain fluorinated greenhouse gases <sup>(1)</sup>	P
11.	Knowledge of environmentally friendly practices for the recovery of fluorinated greenhouse gases from and charging of fire protection systems	T

<sup>(1)</sup> OJ L 333, 19.12.2007, p. 4.
