

## Europäische Unternehmen suchen österreichische Geschäftspartner

Hier finden Sie ausgewählte Kooperationsprofile aus der Business Cooperation Database des Enterprise Europe Netzwerks.

## TOP-Angebote aus dem Maschinenbausektor Stand: 10.10.2011

Profilnummer	Kurzbeschreibung
Profilnummer: 20110921023	A German company specialised in manufacturing high
1011(110111111111111111111111111111111	pressure controls is looking for partners (in Europe, Russia,
	Mexico) for subcontracting that take over the
	,
	manufacturing parts for the company's products. A joint
	venture and / or the acquisition of (a part of) a company
D 6'l 20110001020	would also be possible.
Profilnummer: 20110901020	Small French company, specialised in design,
	manufacturing and distribution of hydraulic equipment and
	other machines is looking for trade partners for outsourcing
	activities and subcontracting, as sub-contractor or main
	contractor.
Profilnummer: 20110830023	A German producer of water treatment platns for
	hospitals, food processing companies etc. is looking for
	trade intermediaries and licence partners for their
	patented equipment. The company offers Joint Venture
	and wants to sell or buy a complete company or a part of
	it.
Profilnummer: 20110826021	Polish small company specialized in manufacturing of
	hydraulic actuators and provide services of treatment and
	full assembly of large valves (Ø200 - Ø500) is looking for
	trade intermediary services, reciprocal production and
	offers itself as subcontractor.
Profilnummer: 20110825026	Polish small company the manufacturer of special
	machinery and equipment dedicated for furniture industry
	and wood industry is looking for international
	opportunities. Company is specializing in manufacturing of
	devices and machines for special orders and collating of

	technological lines. Company is looking for trade intermediary services, reciprocal production and offers itself as subcontractor.
Profilnummer: 20110722028	UK leading manufacturer of saw blades for a wide range of industry sectors including the engineering, oil, window and automotive industries, seeks distributors for its products. The company is also potentially interested in reciprocal production agreements and subcontractor / outsourcing arrangements.
Profilnummer: 20110617024	A Greek company specialized in machining for manufacture and repairs in industrial and maritime sector, is looking for subcontracting and outsourcing activities.
Profilnummer: 20110615043	A Hungarian SME, dealing with the customised manufacturing of tools, moulding tools, machines and plastic moulding, is looking for partners for reciprocal production due to their free capacities, and searching for partners for outsourcing activities in Germany and Austria.
Profilnummer: 20110609037	A German company with experience in drive systems and components served to truck, train and energy markets, offers trade intermediary services and subcontracting and is looking for subcontracting partners.
Profilnummer: 20110606032	French company specialised in laser machines for micro machining, laser subcontracting, micro-assembly by laser, last coating technologies, is looking for a distributor, agent, representative in Europe and other countries with technical appliances. The company is open to joint-venture and is interested in the creation of a new sub-divisary.
Profilnummer: 20110601029	Polish company manufacturing steel central heating stoves, fireplace inserts & accessories, metal interior & garden decorations, gates, balustrades and fences is seeking distributors and is interested in reciprocal production. The company also sales agricultural and forestry machinery.
Profilnummer: 20110601005	Spanish company dedicated to casting, pressing and metalwork (subcontracting works) is interested in joint-venture, exchange of share and in reciprocal production agreements. Also it is looking for distributors or commercial agents.
Profilnummer: 20110526038	A UK SME is a designer and manufacturer of innovative and proven security and safety detection systems and devices; the UK company is seeking European trade intermediary partners to aid the sale of these products. The UK company is also interested in reciprocal distribution and joint venture relationships to promote related products into the UK market.
Profilnummer: 20110525033	A Polish company is dealing with technical solutions connected with energy saving and energy management through Internet or local LAN Network. The company is looking for trade intermediary services and joint venture possibilities. The company is also offering sale of the

subcontracting/outsourcing possibilities.  Profilnummer: 20110520027  An Austrian - Russian company has developed high-tech industrial equipment based on know-how technology of 'liquid ice' production. The company is looking for distributors of the equipment with its further maintenance and joint venture.  Profilnummer: 20110513031  Greek company specialized in renewable energy, seeks partner for joint venture and licensing agreements.  A Czech engineering company experienced in production of heavy engineering parts, laser, CNC and oxygen cutting offers free production capacity and subcontracting in the field of railway vehicle construction and automobile industry. The company disposes of its own trucks and is able to deliver the products directly to their client.  An Irish environmental remediation company specializing in property protection is looking for a partner to bring a large scale mechanical flood defense system to market. The company requests a joint venture.  Profilnummer: 20110418019  Polish company dealing with all sorts of metalwork, machining of different types of materials and manufacturing of precision tools (insulation stripping knives, cutting knives, clamps and other tools for production of cable harnesses mostly in automotive industry) is looking for distributors, partners for reciprocal production activity of the company concentrates on wear tools and parts that are used in the manufacturing of cable harnesses, and other manufacturing, especially in the automotive sector.  Profilnummer: 20110427052  An Italian company specialized in the realization and in the assistance of equipment for lifting and transporting of special loads is looking for trade services and reciprocal production in all Europe.  Profilnummer: 20110426019  A German company developed a fuel saving device and distributes it since 2005. The device reforms oil or gas fuel enhancing combustion in engines or furnaces to yield more energy and cleaner exhaust. It is cost-effective and easy to integrate. The company is looking fo		complete company or a part of it and
