

AggreGate®

**Tibbo**  
SYSTEMS

# Internet of Things Platform

Victor Polyakov,  
CEO of Tibbo Systems

# About Tibbo

- Founded in 2001
- Offices in Taiwan and Russia
- Distributors in 50+ countries
- Ownership structure: limited partnership

## Members:

- Tibbo Systems (software)
- Tibbo Technology (hardware)

# Tibbo Product Portfolio

- AggreGate IoT Integration Platform
- Vertical market products based on AggreGate
- Serial-over-IP converters
- Embedded IoT modules
- Modular IoT gateways: Tibbo Project System
- Programmable controllers and single-board computers

# Vertical Market Solutions

- Network Management
- SCADA/HMI
- Data Center Management
- Physical Access Control
- Building Automation
- Mobile Device Management
- Telecom Tower Monitoring
- Fleet Management
- Vending Machines
- Sensor Monitoring
- Smart Metering
- People/Vehicle Counting
- Digital Signage
- Remote Monitoring

# Some Customers and Partners

Monitoring of a nuclear-neutron research reactor

Integrated solution for smart metering and monitoring of IT infrastructure

Management and monitoring of telco base station power supply units

Management of industrial UPS units

Monitoring of e-government services and IT infrastructure

Integrated monitoring of a telecom operator network

Narrow-band radio station monitoring system

Automation of steam turbine operation

Campus engineering infrastructure automation

Monitoring of payment systems and queues

Monitoring and control of sugar beet storage

Control of employee attendance in remote offices

Facility automation of the Electoral Commission Building in Namibia

Forklift fleet management and monitoring

Network and engineering systems monitoring

Automation of data center engineering infrastructure

Derived SCADA/MES/OEE product for packaging lines

Data acquisition from industrial alcohol breath testing devices
