

Foreword

Gansu is located in the upper reaches of the Yellow River and in the junction of the Loess, Inner Mongolia and Tibetan plateaus. It is one of the important cradles of Chinese nation and its civilization and among the earliest regions engaged in cultural and economic exchanges and cooperation between the East and the West. The world-famous Silk Road stretches over 1,600 kilometers in Gansu. The Province covers an area of 425,800 square kilometers and has a population of 27 million.

Various land-forms and varied climate. There are various land-forms in Gansu such as mountains, plateaus, valleys, plains, deserts and Gobi deserts. The province boasts a varied climate and abundant sunshine, but has low rainfall, low humidity and a large temperature difference between day and night. Its land and climate are helpful for developing local special agriculture, producing healthy food and growing crops with few pest problems. By taking advantages of sufficient sunshine and dry-farming resources, Gansu has become China's largest seeds producer, one of the third largest potato producer, one of the five major pastoral areas, an important planting base for Chinese herbal medicines and one of the regions with the best ecology for growing wine grapes.

Rich historical and cultural heritage. Gansu is rich in cultural and tourism resources thanks to its profound cultural heritage, beautiful natural scenery and colorful folk customs. Gansu is especially attractive to tourists because of its unique charm of the famous ancient Silk Road. A number of culture-themed tourist routes have been developed focusing on Dunhuang City, the Silk Road and the Yellow River.

Abundant natural resources. With large reserves of petroleum, coal, nonferrous metals and other mineral resources, Gansu is one of the largest resource producers and known as the "Land of Non-ferrous Metals" in China. There are 1,527 kinds of Chinese medicinal herbs in

the province, making it one of the major medicinal herbs producers in the country. In particular, the province is endowed with rich solar and wind energy with favorable development conditions. Wind power and photovoltaic power generation are complementary to each other as they are rich in the same place. Gansu has also become an important base for new energy and new energy equipment manufacturing in western China.

Advantageous geographical location. Gansu is located in the middle of the Eurasian Continental Bridge and its capital city Lanzhou is the geometric center of China's land territory. The province links the east to the west and connects the north with the south. It is an integral transportation hub in the northwestern China for railway, highway, air-line, water transport and pipelines, in addition to an important postal communication and energy transportation passageway extending to all the directions of China and even to central and west Asia. Today, Gansu has become an important transportation hub and logistics center in the western China.

Solid development foundation. Gansu has a good development foundation for heavy chemicals, non-ferrous metallurgy and equipment manufacturing, making it an important base of energy sources and raw materials, in the meantime, it enjoys good momentum of development in new energy and new energy equipment manufacturing, bio-medicine, new materials and other emerging industries, having huge potential in deepening industrial cooperation.

Compound opportunities. With the deepening of China's "West Development Strategy" and the gradual implementation of the strategic vision of building the "Silk Road Economic Belt", Gansu was designated as an important gateway for opening to the west and a strategic base for sub-regional cooperation, facing opportunities of undertaking industrial transfer from more developed eastern regions to less developed western regions, compound preferential policies and industrial upgrading, giving it strong late-developing advantages. Currently, Gansu has China's fifth state-level new area--Lanzhou New Area, the only national circular economy demonstration zone in the country and other strategic economic platforms, China's only culture-themed

strategic platform --the Inheritance and Innovation Zone of Chinese Civilization, as well as the only strategic ecological platform --the Comprehensive Pilot Area of National Ecological Security Shield, all these platforms have provided strong support for building Gansu into a golden section along the Silk Road.

In order to achieve Gansu's economic transformation and upgrading, we have selected 141 key projects and compiled the Major Investment Projects of Gansu 2016. The projects include petrochemicals, new and high technologies, mineral resources, infrastructure, agricultural industrialization, trade and logistics and so on. All these are key industrial projects with high rate of return on investment and promising market prospects, making them ideal choices for investment.

We sincerely wish to join hands with friends from all business circles, give full play to our advantages and strengthen exchanges and cooperation in wider fields and deeper levels. We will try our best to provide you with quality and efficient services for business negotiations, cooperation and exchanges.

Contents

New Technology and Bio-medicine

1.600,000 t/a Potassium Sulfate Project	1
2.100,000 t/a PVC Profile Project	2
3.300,000 t/a Coal Tar Deep Processing Project in Huating County of Pingliang City	3
4.The Project of Syngas Production through Clean Coal Gasification	4
5.200,000 t/a Ethylene and Related Fine Chemical Products Project	5
6.300,000 t/a Synthetic Ammonia and 520,000 t/a Urea Project in Yumen City	6
7.Standardized Plant Construction Project in Petrochemical Industry Zone of Lanzhou New Area	7
8.1.2 million t/a Ethane to Ethylene Gas Construction Project in Lanzhou New Area	9
9.Urban Mineral Resources Recycling and Deep Processing Project in Honggu District of Lanzhou City	10
10.The Big Data Industrial Park Project in Jinchang City	11
11.The Cloud Computing Data Center Construction Project in Tianzhu County of Wuwei City	12
12.Chinese Herbal Medicine Deep Processing Project in Huixian County Industry Concentration Zone of Longnan City	13
13.Deep Processing of Prepared Decoction Pieces of Chinese Herbal Medicine and Logistics Park Construction Project in Xihe County of Longnan City	15
14.Traditional Chinese Medicine Base Construction and Processing Project in Baiyin City	17
15.Construction of TCM Granules Project in Dingxi Economic Development Zone	18
16.The Project of Extracting Heparin Sodium from Livestock Offal in Hezuo City	19

17.Traditional Chinese Medicine Deep Processing Project in Yima Industry Concentration Zone	20
18.50,000 t/a Anhydrous Glucose Project in Huachi County	22
19.2000 t/a Glutamine and N-acetyl-glutamine New Technology industrialization project in Lanzhou New Area	23
20.Animal Vaccine Diagnostic Reagents Plant and Production Line Project in Lanzhou New Area	24
21.The Innovation Park Project (phase I) of National Biological Industry Base of Lanzhou New and High-tech Development Zone	25
22.Pengjiaping Research and Development Base Investment Project of Lanzhou Pioneer Park for Return Students of Lanzhou New and High-tech Development Zone	26
23.Halal Gelatin Health Products and Medicine Processing Project in Honggu District of Lanzhou City	28

Infrastructure and Social Programs

24.Central Heating Project in Urban Area of Taichang County in Longnan City	29
25.East Baiyin Industry Park Special Railway in Baiyin City	30
26.Liuchuan Industrial Park Special Railway in Baiyin City	32
27.Grade Two Water Supply Pipeline Renovation Project at Old Town in Baiyin City	33
28.High Speed Railway Station Square in Tongwei County	34
29.Leisure and Nursing House in Lintao County	35
30.Tourism Road Connected with National Highway 312 in Jiayuguan City	36
31.Urban Underground Pipe Bank in Jiayuguan City	37
32.Central Heating Supply Pipe from Thermal Power Cogeneration in Downtown of Wuwei City	38
33.Underground Pipe Bank in Minqin County of Wuwei City	39
34.Circular Economic Chain of Gulang Fine Chemical Group in Wuwei City	40
35.Dated Stadium Reconstruction in Zhengning County Downtown	43
36.Gansu Youth Football Creative Culture Industry Park	44

Cultural Tourism

37.Photovoltaic Industrial Park in Jinchang City	45
38.Construction of Qilian Ski Field in Yongchang County	46
39.Auto Camp Resort in Daheba Scenic Area of Tanchang County	47
40.Tourism Development of Karst Caverns in Douba Town of Kangxian County	49
41.Construction of Self Driving Camp in Yunping Scenic Area of Liangdang County	51
42.Development of Grottoes Art Corridor in Tianshui City	53
43.Protection and Development of Dadiwan Ruin in Qin'an County	54
44.Development and Construction of Zhangye National Desert Sports Park	56
45.Construction of Zhangye International Horse Culture Industrial Park (Silk Road Horse City)	58
46.Happy Valley in Kongtong District of Pingliang City	59
47.Construction of Yellow River Holiday City in Baiyin City	60
48.Majiyao Culture Theme Park in Lintao County	62
49.Jiayuguan Gobi Canyon Scenic Area	63
50.Development of Valley Scenic Spot in Zhuli Village of Diebu County	64
51.Tibetan Culture International Ecological Tour Zone on Dangzhou Mountain of Hezuo City	65
52.Construction of Daxiagou National Forest Park in Zhouqu County	68
53.Development and Construction of Cuifeng Mountain Scenic Area in Zhouqu County	70
54.Construction of Ancient Glacier Geographic Park in Jishishan County	73
55.Forest and Snow Mountain Self-driving Adventure Base on Taizi Mountain of Hezheng County	74

56.Construction of Folklore Culture Industrial Park in Qingyang City	75
57.Construction of Qihuang Health Cave Dwellings Town of Qingcheng County	77
58.Development of Dafengchuan Red Tourism in Huachi County ...	79
59.Sino–Foreign Creative Industrial Park in Lanzhou New Area ...	81
60.Jincheng Food Street in Dazhong Lane of Lanzhou City	82
61.Qingbaishi Business and Tourism Industrial Park in Chengguan District of Lanzhou City	83
62.Renshou Mountain Eco –culture Tourist Scenic Area in Anning District of Lanzhou City	84
63.First Phase Construction of Water Recreational Park in Anning District of Lanzhou City	85
64.Development of Cultural New World Tourism in Yongdeng County of Lanzhou City	86
65.Tourism Development on Xinglong Mountain of Yuzhong County in Lanzhou City	88

Nonferrous Metallurgy

66.The Project of 20 billion Lead Frames for Integrated Circuits and Discrete Devices in Jinchang City	90
67.The Project of Recycling Iron and Sulfur from Lead and Zinc Tailings in Chengxian County of Longnan City	91
68.100,000 t/a Zinc, Copper and Titanium Plates Production Line Project in Huixian Industry Concentration Zone of Longnan City	92
69.Zinc Smelting System Technology Upgrading and Utilization Project	93
70.Rare Earth Permanent Magnet Motor Industrialization Project of Gansu Rare Earth Group	95
71.Highly Efficient Rare Earth Catalyst Project of Gansu Rare Earth New Materials Co., Ltd	96
72.Steel Structure Plant Construction Project in Huachi County	97
73.150,000 t/a of Wide High–alloy Aluminum Plate Project in Honggu	

District of Lanzhou City	98
--------------------------------	----

Commerce and Logistics

74.Xigu Bonded Logistics Center (B Type) in Lanzhou Economic and Technological Development Zone	99
75.Asia –Pacific Industry and Sci –Tech Headquarter Base Business Attraction in Lanzhou New Area	100
76.Chengxian County Airport Logistics Park in Longnan City - - -	102
77.Jikou Town Logistics Park in Tianshui City	103
78.Western Fur Processing and Trading Park in Zhangjiachuan County	104
79.City Complex in East Kongtong District in Pingliang City - - -	106
80.Green Valley at Shuiyuan Village in Lanzhou City	107
81.E–Commerce and Logistics Park in Weiyuan County of Dingxi City	109
82.Hardware and Electrical Goods Market in Jiuquan City	110
83.Bonded Logistics Center in Dunhuang City	112
84.Nanchuang Logistics Area Comprehensive Renovation Project in Anding Industrial Park of Dingxi Economic Development Zone ..	113
85.Comprehensive Logistics Park in Weiyuan County	115
86.China Gulang Small Commodities Market in Wuwei City	116
87.Halal Food and Goods E–Commerce Platform in Linxia City ..	117
88.Xiaojin Logistics Park in Xifeng District	118

Equipment Manufacturing

89.100,000 Mini Cars Production Line Project in Lanzhou New Area	119
90.Motor Tricycle Production Line Project in Lanzhou New Area	120
91.Electrical and Rail Transportation Equipment Production Base Project in Lanzhou New Area	121
92.Heat Transfer Equipment Production Line Expansion Project in Lanzhou New Area	122
93.Memory and VLSI Packaging Production Line Project of Tianshui Tianguang Semiconductor Co., Ltd	123

94.The Electronic Industrial Park Construction Project in Qingshui County	124
95.New Energy Vehicle Industrial Park Construction Project in Gaotai County	125
96.100,000 sets/year of Natural Energy Street Light Project in Baiyin City	127
97.Fourth-generation of Nickel Sputter Bearing Bush Production Project in Baiyin City	128
98.Business Invitation Project of Baiyin Battery Industry Concentration Zone	129
99.The Project of Producing 2,000 sets / year of Gearbox Parts for Wind Power Generators in Jiuquan City	130
100.Wind Power Equipment Forging Parts Manufacturing Project in Jiuquan City	132
101.1.1 million m ² / a of New Type of Environment-friendly Thermal Insulation Plates Production Project in Lintao County of Dingxi City	133
102.Permanent Magnet Motor for Electric Vehicles Production Project in Liangzhou District of Wuwei City	134
103.Electric Vehicles Production and Sales Project in Xichuan Industry Concentration Zone	136

Copper, Nickel and Aluminum Industrial Chain

104.BNMC Copper Processing Project	137
105.BNMC Flash Furnace Short Procedure and One Stop Copper Smelting Industrialization Demonstration Project	139
106.Lithium Battery Used Electrolytic Copper Foil Project	141
107.Coal-Electricity-Aluminum Integration for Circular Economy Industrial Chain of Gansu Hualu Aluminum Company Moving from City to Industry Park	142
108.Automobile Aluminum Wheels Production Line in Baiyin City	147
109.One Million Aluminum Alloy Wheels Project in Jiayuguan City	149
110.JNMC 12,000 t/y Nickel-based Powder Materials Project ...	150

111.JNMC Nickel and Nickel Alloy High Precision Cold –Rolling Project	152
112.JNMC 5,000 t/y Electronic Grade NiO Project	154
113.JNMC 2,000 t/y Nickel Aminosulfonate Project	155
114.JNMC 5,000 t/y Super Alloy Project	157
115.JNMC 1,000,000 m ² /y Continuous Nickel Foam Project - - -	158
116.JNMC 60,000 t/y Precision Brass Rod Project	159
117.JNMC 100,000 t/y Copper Strip Project	161
118.JNMC 10,000 t/y Copper–Iron Composite Powder Material Project	162
119.JNMC 30,000 t/y Copper Series Powder Project	164
120.JNMC Wire and Cable Series Products Production Project ...	165
121.100,000 t/y Copper Steel Clad Plate Industrialization Project in Jinchang City	167
122.3,000,000 p/y Cylinder Printing Nickel Screen Production Line in Jinchang City	168

Agricultural Industrialization

123.Construction of Jujube Plantation and Seedlings Breeding and Processing Base in Jinchang City	169
124.Development of Series Pepper Products in Wudu District ...	170
125.Development of Milk Cow Breeding in Zhangchuan County	171
126.Lamb Separating and Packaging and Series Products Deep Processing in Jingyuan County	172
127.An Annual Output of 300,000 Tons of High Quality Fresh Milk Powder and 20,000 Tons of Formula Milk Powder of Wuwei Ronghua New Type Agricultural Co., Ltd.	173
128.Processing of 1,000 Tons of Grape Procyanidins in Minqin County of Wuwei City	175
129.Development of White Yak High–end Products in Tianzhu County of Wuwei City	177
130.Sightseeing Garden for Pollution–free Vegetables Plantation and Animal Breeding in Hezheng County	178
131.Development of Pepper and Walnut Products in Zhouqu County	

.....	180
132.Construction and Development of Edible Fungus in Luqu County	181
133.Processing of Apple Wine, Vinegar and Beverage in Yima Industrial Complex	183
134.Development of Coarse Cereals in Yima Industrial Complex	184
135.Construction of 10, 000 Mu of Apple Orchard and Deep Procession of Fruits and Vegetables in Zhengning County	185
136.High -bred Milk Cow Breeding and Dairy Products Processing Base in Huachi County	187

Energy and Resource Development

137.Oil Shale Exploitation and Utilization Project	188
138.3 million t/a CWM Production Line Construction Project in Subei County	190
139.500,000 t/a of Clean Fuel Production Project in Xichuan Industry Concentration Zone	192
140.160,000 t/a of Light Calcium Carbonate and 40,000 t/a of Ultra- fine Calcium Carbonate Production Project	193
141.Qierkang Brand High Quality Drinking Water Production Project	195
