

Plywood Factory EcoFanera

Plywood factory " EcoFanera " is a Russian high quality birch veneer and plywood manufacturer. Years of experience, advanced equipment, the usage of high quality materials and modern technologies allow our products to meet world veneer and plywood quality standards. We choose the best birch wood from our region. The wood is known by narrow annual growth rings that give our plywood enhanced strength.

The high quality of our birch veneer and plywood provides a variety of application areas. Leading construction companies and furniture manufacturers in Russia and Europe are among our clients.

Production capacity of our company is about 20000 cbm of plywood and birch veneer annually.

Main product offer:

Birch veneer

- Length up to 1650 mm / 65" / ~ 5.4'
- Width up to 2600 mm / 102.36" / ~ 8.5'
- Thickness 1.0 to 2.0 mm / 0.0394" to 0.787"
- Baltic birch
- Economical use of wood
- Best suitable for
 - bed slats
 - plywood
 - bent plywood elements (layer glued)
 - curved plywood
 - flooring

Ecofanera also offers jointed veneers or composed veneers for core layers

Location near Moscow

We are located in the city of Kirzhach just 75km away from Moscow. As Moscow is the main transportation hub in Russia it allows us to reduce transportation costs for our European customers. Availability of transportation resources gives us an advantage of delivering our products in time and for better price.

Quality and Tolerances

All of our customers are manufacturing companies and they are using our veneer for the production of their own goods. Therefore, tolerances in sizes and grades is one of the most important criteria in our work.

Variety of veneer application:

Plywood

Bed slats

Bent plywood elements

Wire reels

Curved plywood

Flooring

Veneer based decorative panels
