

"LESDREVTECH-2018" invites!

On May 23-25, the 18th International Specialized Exhibition "LESDREVTECH – 2018" will be held at the Globus Park, Shchomyslitsa. The forum will bring together the most authoritative experts and representatives of forest companies from all around the world, and an entertainment program will present an exciting show to the guests and participants of the exhibition.

The traditional timber industry forum has become one of the main events of the business calendar for forestry enterprises. The exhibition opens wide opportunities for promotion products and services on the international market, it's a convenient business platform for exchanging opinions and conclusion new business contracts. Belarus, Russia, Poland, Turkey, Germany, Italy, Austria - not a complete list of countries whose representatives are preparing to participate in the exhibition.

The theme "LESDREVTECH - 2018" includes a presentation of machinery and technologies for growing and harvesting forests, collecting, delivering and processing of logging waste and wood processing. Belarusian and foreign companies, world-famous brands will present their machines and tools for primary and in-depth processing of wood, as well as drying and packaging, energy-saving equipment and technologies. The stands "Wooden house-building", where the producers present houses, bathhouses, summer houses, benches, as well as wooden furniture for dachas and cottages, are always popular with the guests of the exhibition.

As well, the organizing committee of the exhibition with the support of partners — the Ministry of Forestry of the Republic of Belarus — prepares a business program for the forum-guests, meetings with experts, free consultations, special offers from exhibitors and so on. The event will be attended by representatives of the Belarusian Universal Commodity Exchange, as well as practically all the organizations of forestry, furniture, woodworking industry and foreign experts. The parties will discuss the prospects for the development of the logging and woodworking industry, the most effective use of forest resources, and the production of biofuel. The second day of the business forum will be devoted to the B2B market - "Business to Business".

All the guests of the forum, not only forestry specialists, will be able interesting and useful to spend time at the exhibition. The organizers of "LESDREVTECH - 2018" are preparing a diverse and entertaining program for them. For example, on the previous forums, the guests of the exhibition saw demonstration performances by forwarder operators, the competition of the best loggers on the "Timber Show", visited open stands where they got acquainted with the most modern samples of Belarusian and foreign forestry machinery and equipment for the timber industry complex.

The Ministry of Forestry of the Republic of Belarus organizes the fair of forest products for the guests of the exhibition. There will be possible to purchase the best products of Belarusian companies: tree seedlings, industrial wood, objects for decorating the homestead territory and so on. The exhibition prices will pleasantly surprise the buyers.

If you are in active searching for new solutions for the successful promotion of your company, open to new business partners, accustomed to being up to date with the latest news from the world of woodworking and timber industry, want your company to become famous - this exhibition will help you achieve your goals! "LESDREVTECH -2018" gives a unique opportunity to be in the trend of the latest changes in the market!

The National Exhibition Center BelExpo organizes the exhibition "LESDREVTECH - 2018" with the support of the Ministry of Forestry, the Ministry of Housing and Communal Services, the Ministry of Education, the Ministry of Industry, the National Academy of Sciences of Belarus, the Energy Efficiency Department of the State Committee for Standardization, and the Concern Bellesbumprom.

We will be glad to see you at the 18th international specialized exhibition "LESDREVTECH-2018"!
