LEGAL NOTICE

Owner/Publisher: Austrian Federal Economic Chamber, Wiedner Hauptstrasse 63, 1045 Vienna, wko.at
 Editor: Department of Educational Policy, Mag. Petra Duhm
 Production: WKÖ Marketing & Communication
 Layout: design.ag, Alice Guttederer, www.designag.at | Printing: Self-publishing, Inhouse GmbH | February 2016

In the past 25 years, WKO has continuously stepped up and improved its offerings in the field of career guidance and information. This was done with the express goal of providing neutral information about all relevant educational routes and career options.

CAREER GUIDANCE AND INFORMATION

OFFERED BY THE ECONOMIC CHAMBERS

Every young person in Austria has access to various “basic services” in career guidance and information which are provided by the Economic Chambers and WIFIs in their career centres. Since 2010 free services have been stepped up and assessment structures for the **13+ target** group are available area-wide.

BASIC SERVICES

Amongst other things, basic services include face to face counselling, counselling for school classes, workshops for young persons and teachers, online interest profiles and first-time counselling at career fairs.

TALENT CHECKS

In most provinces, assessment/counselling is free of charge for **young persons**. These offerings are organized by the Economic Chambers and held in schools and/or on the premises of the Chambers. The checks are available almost area-wide; they are addressed at young persons in their 7th or 8th year of schooling. Parents are usually taken on board in subsequent counselling.

POTENTIAL ANALYSIS

After a three-hour test, the results are analyzed by psychologists in face to face counselling. Potential analysis is also available for **adults and businesses** and it is subject to a fee.

BIC.AT – ONLINE CAREER INFORMATION OFFERED BY THE ECONOMIC CHAMBERS

BIC.at is a free online tool of the WKO which offers an excellent first insight into the vast choice of options for careers and study programmes. Alongside descriptions of about 1,800 occupations and related educational options, it includes “**Career Choice**” and “**Interest Profiles**”, important instruments of career guidance.

“WKO JOB PROFILE” FOR THE TARGET GROUP OF REFUGEES

A pilot project currently offers a special online test for **(young) refugees** in Arabic and Farsi/Persian/Dari.
