BikerSOS GmbH

E info@bikersos.com

W
https://www.bikersos.com/en/

PRODUCT

Motorcycling App

The BikerSOS app monitors all your motor biking tours and helps in case of emergency. The app includes a feature that detects possible accidents while riding a motorcycle and alerts your emergency contacts and the emergency call center. It provides the emergency contacts with vital information such as blood type and possible allergies. The feature *Live-tour,* moreover, allows friends and family to follow your live position along your itinerary through a link. BikerSOS also summarizes driven tours and has a Motorcycle blog.

2

Butleroy GmbH

E hello@butleroy.com

W https://butleroy.com

PRODUCT

Calendar App

Butleroy is a calendar that offers many features in order to maximize efficiency while scheduling. The app integrates all to-do lists, manages reminders and supports planning.

The app can also be used through *Amazon Alexa Skill*, a virtual assistant developed by Amazon.

Butleroy furthermore, offers a Restaurant Chatbot that gives recommendations and books reservations.

3

Chatvisor GmbH

E office@chatvisor.com

W https://chatvisor.com/de/

PRODUCT

Newsletter platform

Chatvisor provides a service that sends the user's newsletter via Facebook. It helps to increase the number of subscribers and keeps them well informed about the newest products/collections, news, etc. – all within the Messenger.

The features help to grow and engage the user's community, send its newsletter and measure success. The platform automatically synchronizes content and delivers it to the targeted community.

It integrates the users web shop, thus enabling the sending of products to the newsletter subscribers.
