

## About Enterprise Europe Network

Launched in February 2008 by the European Commission, the Enterprise Europe Network offers its support especially to small and medium enterprises (SMEs) in Europe. All activities of the network aim at promoting innovation and competitiveness in Europe. The services offered by nearly 600 partner organisations from more than 60 European and non-European countries include partner searches for technology, research and business cooperation, technology audits, advice on European regulations, current programmes and funding opportunities.
