

DR. STEFAN ROHRINGER

HEAD OF INFINEON DEVELOPMENT CENTER GRAZ,

INFINEON TECHNOLOGIES AUSTRIA AG

Stefan Rohringer (born in 1964) is a trained computer scientist (TU Wien, State University of Delaware, USA) with over 30 years of expertise in innovations and technology developments in the fields of micro- and nanoelectronics. Since 1999, he has been leading the Infineon Development Center in Graz with over 500 employees and is active in regional, national, and international networks: Chairman of the European ESBS "Electronics and Software Based Systems" Austria (since 2019), R&D spokesperson of the Platform Industry 4.0 (since 2014), Head of R&D Industry Forum of the IV Steiermark (since 2012).

About Infineon Austria

Infineon Technologies Austria AG is a subsidiary of Infineon Technologies AG, a leading global provider of semiconductor solutions for power systems and the Internet of Things (IoT). Semiconductors are essential for addressing the energy-related challenges of our time and shaping the digital transformation. Infineon's microelectronics drive decarbonization and digitalization, enabling groundbreaking solutions for green and efficient energy, clean and secure mobility, as well as intelligent and secure IoT.

Infineon Austria brings together expertise in research and development, manufacturing, and global business responsibility. The headquarters are in Villach, with additional branches in Graz, Klagenfurt, Linz, Innsbruck, and Vienna. With 5,886 employees (approximately 2,500 in research and development) from 79 nations, the company generated a revenue of 5.6 billion euros in the fiscal year 2023 (as of September 30). With a research expenditure of 672 million euros, Infineon Austria is one of the most research-intensive companies in Austria.
