# Circular Economy Newsletter

We are pleased to share the **March 2023** edition of the **EuRIC Newsletter** featuring the latest updates from us as well as regulatory & policy developments of interest to the recycling sector.

## EuRIC UPDATES

## **EuRIC's annual conference Boosting recycling through future-fit policies**

EuRIC gathered policymakers, recyclers and other circular economy stakeholders in Brussels for its annual conference **“Boosting recycling through future-fit policies”** which took place on 30 March.

The day, which offered insights into various topics from **design as driver for recycling** to **enhancing the circularity of critical raw materials**, was a great success.

## EuRIC's General Assembly

On 29 March, our members and partners from across Europe gathered in Brussels for the EuRIC General Assembly. Thanks to all participants for a fruitful exchange on the critical role of the recycling industry in transitioning towards a climate neutral and circular economy.

## Launch of EuRIC's new website and domain changes

We recently launched our refreshed website with a simplified domain name: [www.euric.org](http://www.euric.org). In parallel, our email domain has also been updated to align with that of the website. You do not need to make any adjustments, you can email us at either domain and we will receive them as normal.

## New EuRIC team member - Welcome to Florence!

### What are your main responsibilities at EuRIC?

As the new Communication Advisor, I am responsible for ensuring that information about EuRIC's activities flows well to our members, journalists and other stakeholders. This includes, among other things, writing press releases, newsletters and communicating through our various channels (Linkedin, Twitter, website...).

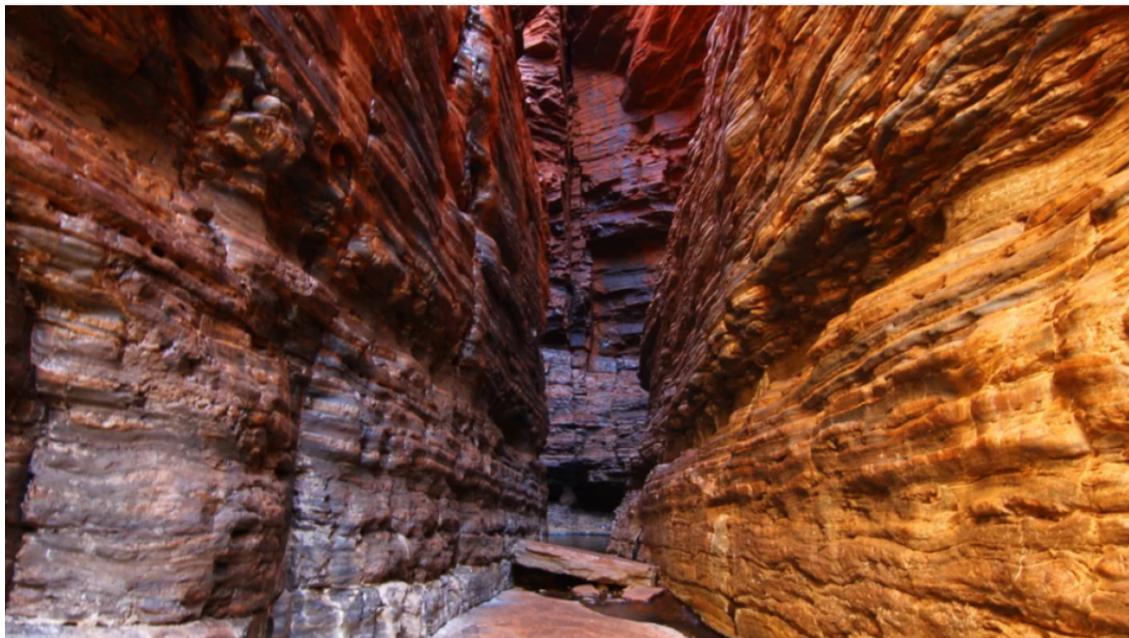

### Can you tell us more about your educational background and previous work experience?

I have a Masters in Communication from the French school, Sup de Pub, in Lyon (France). I also graduated from the Dublin Institute of Technology with a Master's degree in Political Communications and Public Affairs, which I did as a sandwich course in the Irish Senate. I then worked in French Universities, mainly in the International Relations Department.

### Tell us a bit about yourself. What are your hobbies,

[Subscribe](#)[Past Issues](#)[Translate](#)

always on the lookout for restaurants to discover whether it be around my home or when I travel. Before moving to Belgium, I studied in the Netherlands and Ireland, so I'm not afraid of capricious weather and on rainy day I love cocooning in the afternoon with a good book.

## **European recyclers support new recycling targets in Critical Raw Materials Act but hurdles remain**

The European Commission's proposal for a Regulation on Critical Raw Materials is a step in the right direction towards reducing reliance on CRMs from outside the EU and enhancing EU supply chain resiliency and security.
